

STAND UP TO RACISM

OPPOSE "RECLAIM AUSTRALIA"

Reclaim Australia is the project of a group of extreme right wing nationalists, neo-Nazis & racists who spread fear & hatred in the name of 'patriotism'.

They want to convince us to be afraid of difference, to be afraid of our neighbours, co-workers & friends.

SATURDAY APRIL 4 @ 12PM

TAKE FED SQUARE

And stop them spreading their divisive, hateful nonsense.

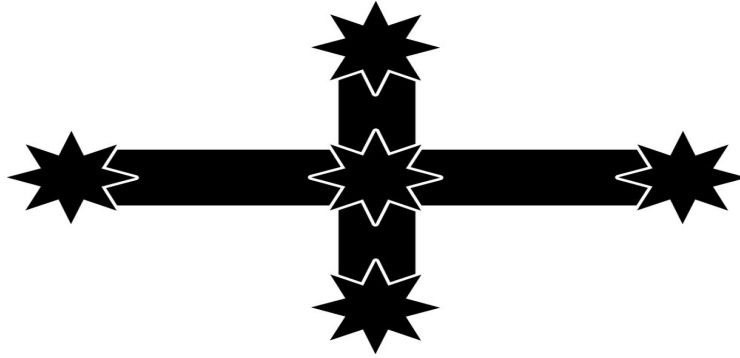

If they move, we will too.

NO ROOM FOR RACISM

ON EASTER SATURDAY KICK THE NAZIS OUT OF TOWN

NOT THEIRS TO RECLAIM

Everything we see around us is the product of theft. Stolen land. Stolen lives. Stolen wages. It has been two centuries without justice & the dispossession continues to this day. "Reclaim Australia" claims to speak for all Australians, but wants Indigenous Australians to "get over it". What a load of rubbish. Always was, always will be Aboriginal land.

THE OLD DIVIDE AND RULE

Demonising 'others' because of their race, cultural background or immigration status is anti-worker & anti-working class. Greedy politicians & dodgy bosses want us divided so we fight amongst ourselves while they loot the joint. Solidarity is the worker's weapon, but it only works when it includes every one. 17 nationalities united at Eureka to fight, side-by-side, to defend their common interests. Honouring that spirit means confronting racism wherever it rears its ugly head.

DISTRACTION FROM THE REAL FIGHT

There's nearly a million people out of work & another million without enough work. There's ten people for every job vacancy. Paying the rent takes half your pay-cheque. They're coming for your penalty rates & for your union card. Schools, hospitals & vital social services have all had their funding slashed, just to keep a couple of mining billionaires happy. Just who is our real enemy?

SOLIDARITY FOREVER**
